PLANNING

Proper planning of required tasks, developing work site procedure and detailed Job Schedules is the starting point for operations. This ensures that all contractual and service objectives are built in and planned for.

ORGANISING

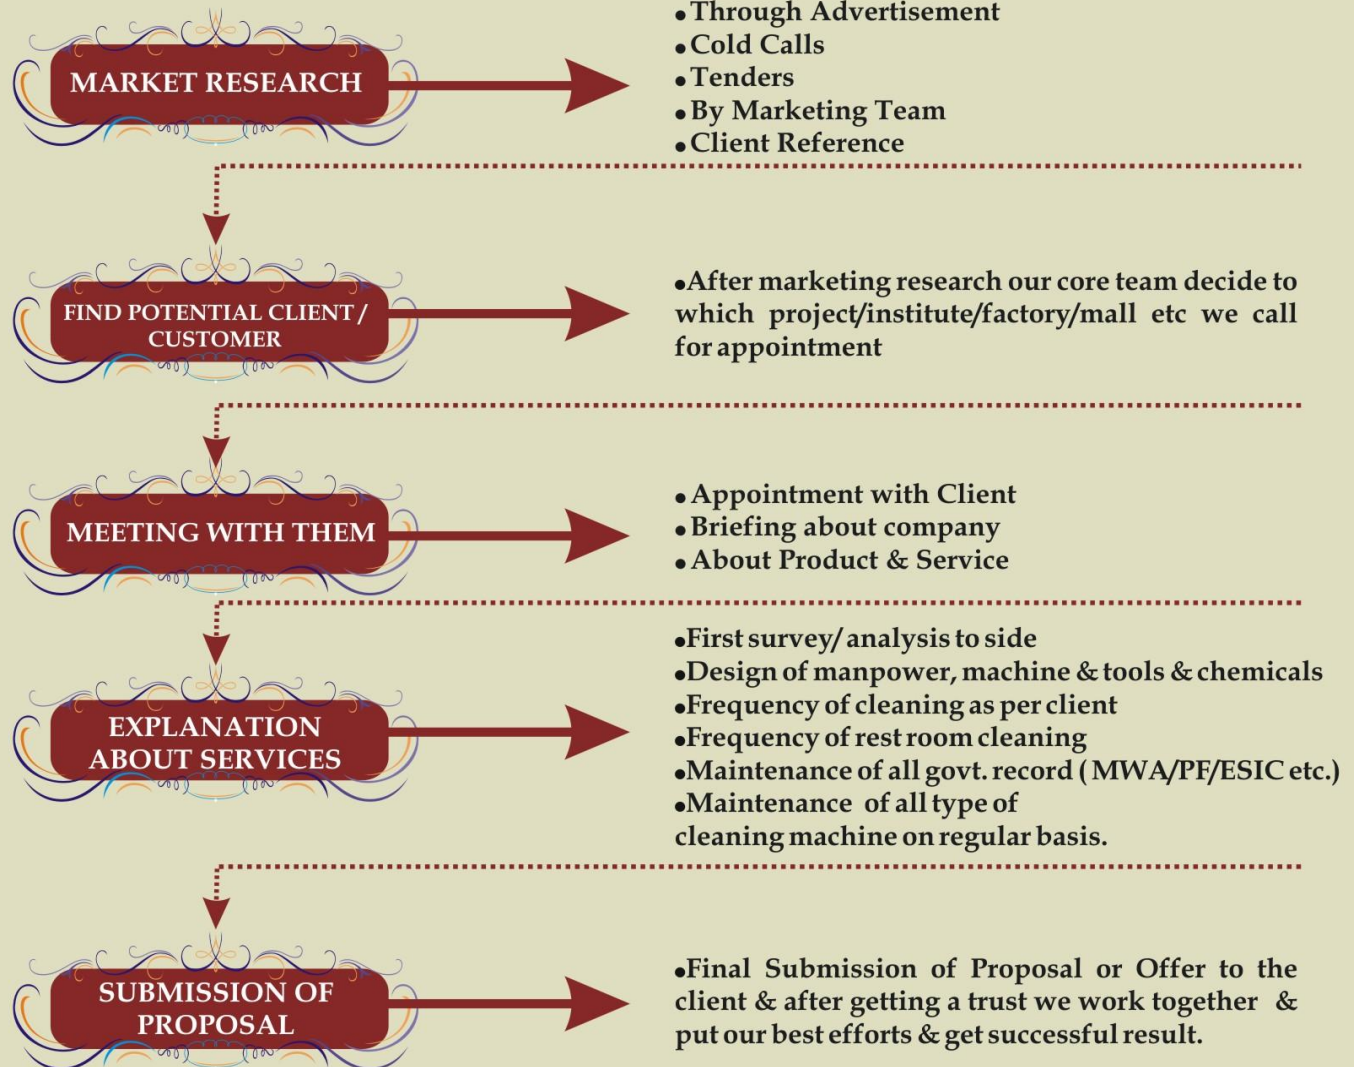

what specification, which methods, how much equipment, materials and so on! ? Which labor saving systems can be used and have the most cost effective combination of ingredients chosen.

DIRECTING

We have a team of expert housekeepers & supervisors backed up with adequate machinery and world class chemicals to manage the show at all our sites so well. that means BY directing to our team we deliver our best of efforts to the client.

HOW WE engage WITH our Prospective CLIENT?

Meet with our Management Team

Human Resource

Our managers and teams generally handle every aspect of labor relations within the business, playing a pivotal role in ensuring organizational continuity and long-term productivity.

Marketing

In our organization Marketing department performs an experience enhancement role as well as providing opportunities for customers or clients to co-create personal value. It makes more profit for the organization as well as creating a customer relationship.

Operation

Operational teams are often seen as the 'face' of the organization. Operations team is the “A-team” of vision logistics and their mission is to take care of the organization (feed it, protect it, and maintain it)

Service

We have very senior engineers for this core activities. They maintain all equipment on side. Most of the equipment are imported for this we are maintain spare part inventory according to model in our store.

Accounts

As we know that An accounting department keeps an organization running effectively. our accounting department provides accounting services and financial support to the organization it belongs to.
